Hallo downloaded the app and was able to set up a appointment at a close testing site,where he could get tested in the next 1hr

Hallo went to the testing cite, and waited till he got a text to go in for his test. His experience with the app has been going so well he recommends his date to use it.

Hallo then got his COVID-19 test, just moments after he entered. His results will then be sent to the app in the next 30 mins.

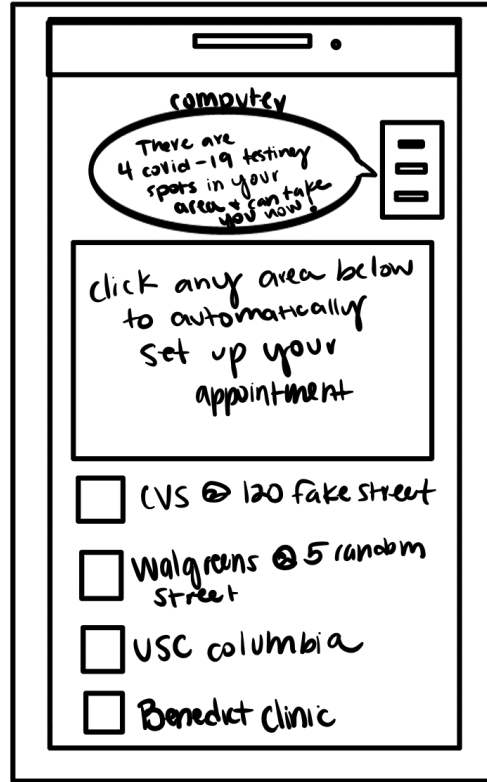

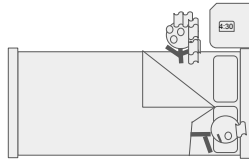

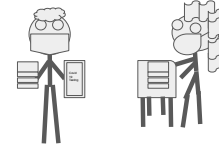

Hallo tested negative for COVID-19 and so did his date. Now they can enjoy their pizza knowing they won't kill each other with a harmful virus.

Vanessa wakes up at 4:30 every morning to get her husband and children off to school.
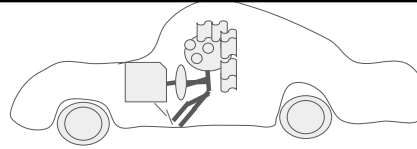

Vanessa drives to school every morning and is exposed to the Corona Virus every day.
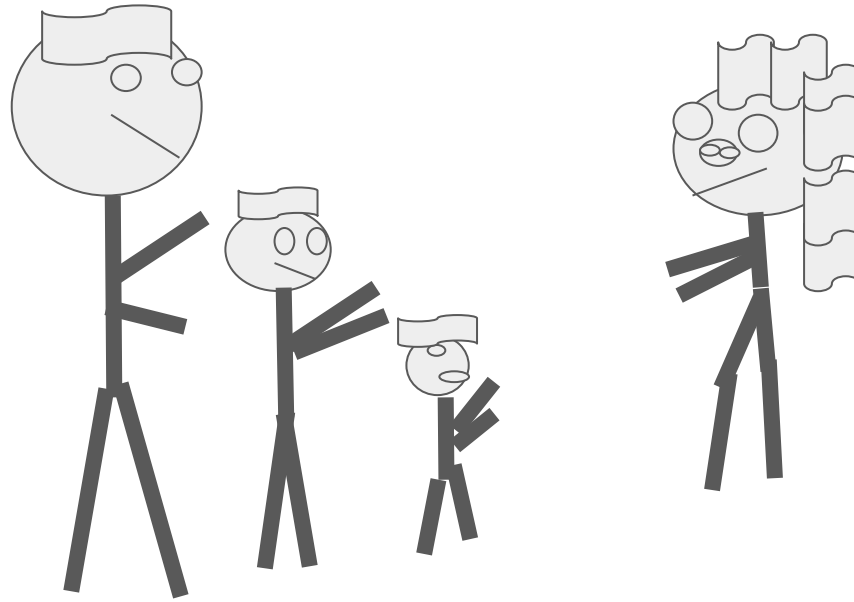

Surrounded by people, she asks someone how to get tested for covid-19, and her friend tells her about the Covid-19 testing app that tells her where she can get tested and how to schedule an appointment with ease.
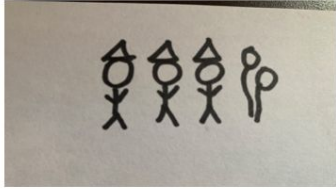

Before Vanessa goes back home, she schedules a test via the Covid-19 Testing Application.

The app notified Vanessa of a testing location close by, and alerted her that they were ready for testing.

Because of Covid-19 Testing Application, she was able to go home safely and not infect her family!
